

Photo Paper 230gsm

Our customers love our Photo Paper because it's high quality glossy coated finish gives outstanding results everytime. It is a 260gsm true photobase paper (MP-coated) for printing with solvent inks. The paper has a real photo like touch and high stiffness. The surface is very uniform with a nice glossy finish for high quality printing results. The printed surface is splash-water-proof and offers long lasting image reproduction. The product is suitable for lamination if required.
