

RollUp PVC Matt+Polyester White Grey

RollUp PVC Matt+Polyester White Grey 220 µm is PVC and PET Composite Grey Back Film. This film has been specially coated to accept Eco-Solvent & Solvent & UV & Latex inks. Thick rollup film has good firmness in the display and excellent lie down properties. The matt white coating prevents reflections from substitute lighting. The grey coating on the back gives 100% opaqueness and is the perfect finish for the high quality appearance of rollup film. Graphics on this media are rich with high colours. This media is ideal for Roll up stands, Indoor/outdoor Signs, Posters, Banners, Pop Display stands.
